Notice of Market-Dominant Price
Adjustment and Classification Changes
Related to Move Update Assessment

Docket No. R2017-7

CHAIRMAN'S INFORMATION REQUEST NO. 5

(Issued July 27, 2017)

On July 3, 2017, the Commission issued Order No. 3990, establishing this docket to evaluate the Postal Service's proposed price and classification changes.¹ To assist the Commission in evaluating the proposed changes, the Postal Service is requested to provide a written response to the following request for information. The response should be provided no later than August 3, 2017.

Please refer to Attachment A to the Postal Service's Notice² which provides updated pages for the Mail Classification Schedule (MCS) that reflect the proposed price and classification changes. The revised Move Update Assessment language reads as follows:

Add \$0.08 per assessed piece, for mailings that fail Move Update verification under the Address Quality Census Measurement and Assessment Process, and which cannot demonstrate compliance with Move Update requirements.

Notice, Attachment A at 2.

¹ See Notice and Order on Price Adjustment for Move Update, July 3, 2017 (Order No. 3990).

² United States Postal Service Notice of Market Dominant Price Adjustment and Classification Changes, June 30, 2017 (Notice).

Please confirm that the following MCS language correctly reflects the proposed Move Update Assessment changes:

Add \$0.08 per assessed piece, for mailings that fail Move Update verification under the Address Quality Census Measurement and Assessment Process, with more than 0.5 percent of mailpieces submitted by a mailer in a calendar month having COA errors, and which cannot demonstrate compliance with Move Update requirements.

If not confirmed, please explain and provide revised MCS language consistent with the proposed Move Update price and classification changes that includes a specific reference to the 0.5 percent error threshold.

By the Chairman.
